STATIONARY

SOFAS- FIXED BACKS AND SEATS

The name is inspired by nature, in particular the world of birds.

Ardea, its long-legged body structure and elegant body are found figuratively transferred to the structure of the upholstery which is supported by light feet. The shape of the soft cushion of the armrest and backrest takes up the characteristics of a wing that welcomes the user.

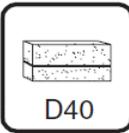

Sample shown in NP-548E

upholstery

Sample shown in NP-548E

Features

- Ardea has a wing like frame that is further accentuated by the special stitching detail.
- Back and arm cushions in polyester foam
- Seats in bi-density high resilience foam topped with memory foam
- Seat support in no sag spring system
- Wooden inner frame
- Leg : Metal in matte black finish
- Available in full leather or full fabric
- Special: Special stitching detail

BOOM BOOM DM-A0614-CS

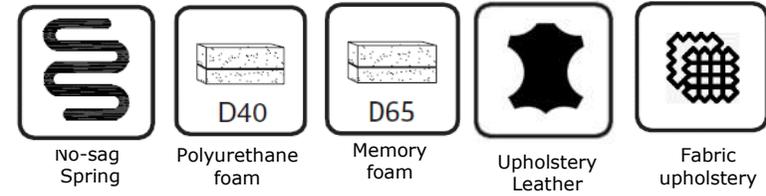

Domicil
GERMANY

Inspired by the curvature and the spin about function of boomerang, we have created this soft and enveloping collection that cocoons in curves. **Boom Boom's** soft shapes enhanced with the use of "couture" details, special stitching details outlining this sophisticated statement piece.

DM-A0614-CS shown in NW-663E
DM-A9035 CLUB shown in FAB-MMO-05

Features

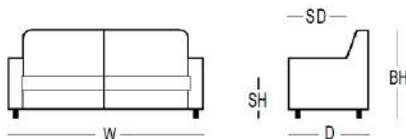

- Couture details - The soft shapes are enhanced with the use of "couture" details, special stitching details outlining this sophisticated statement piece.
- Seats in high resilience foam topped with memory foam
- Seat support in no sag spring system
- Wooden base frame
- Leg : Matte black metal
- Available in full leather or full fabric
- Special: A curved frame is enveloping, providing the user an embracing effect. Special stitching details outlining this sophisticated statement piece.

DUO DM - 12542

Domicil

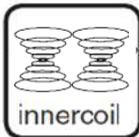

Inspired by the world of cinema in particular by John Joseph Nicholson, known as **Jack**, American actor and director, considered one of the greatest interpreters in the history of cinema. The homage to this star is precisely in the sarcasm of the shapes, soft and playful. Suitable for a leather cover as it enhances this edge which makes it casual but at the same time contemporary.

REINHOLD DM - A0346

Domicil

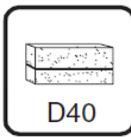

Voyage is inspired from the sails of the traditional sailing ship. The soft and elegant lines are inspired by the sails of the ship, that are important to keep the ship on it's voyage. The generous dimensions make the object important, a scenic element within the space in which it is placed. The trapezoidal-shaped detail on the side of the arm, includes the softness of the armrest to support it and lift it from the ground through the foot in continuity.

This is a piece of contemporary design suitable for different types of furniture.

CYLON DM - A0455

Domicil

The desire to create an iconic object that can be inserted in contemporary but also classic style environments starting from the reinterpretations of archetypes is the concept at the basis of the design inspiration for the model. Hence the name **Dexter** - as a synonym for able / able to adapt to spaces. The roll out armrest recalls the classic but is distorted in its shape making it light and current as well as the metal base that enhances the volume of the upholstery. An iconic, stylish sofa.

With its geometric, precise and clean lines, the **Empire** sofa is an evergreen design that is absolutely timeless. The inspiration of the skyscrapers that stand out in a contemporary city, in fact, is its main feature, as the contemporaneity of the shapes that make it suitable for any type of environment. It has the strength to enhance the context, does not go unnoticed for the details, the legs in metal that elevates it and the stitching that outlines it.

Inspired by the movie "The Great Gatsby," **Gatsby** showcases extravagantly large seat cushions paired with a cool, sleek arm, creating a contemporary design that seamlessly blends style and timelessness. Its clean lines, neutral tones, and innovative features strike a perfect harmony between classic sophistication and modern flair, ensuring Gatsby remains a stylish choice for years to come. The sleek and unadorned clean arm design adds an appealing and effortless touch to its overall aesthetic. Furthermore, the distinctive T-seat cushion enhances the sofa, delivering a luxurious and comfortable seating experience. Gatsby boasts a myriad of configuration options, making it the ultimate sofa to meet diverse needs.

Zeus in the Greek religion is the head of all the Gods, the head of Olympus, the god of sky and thunder, transposed into the concept of the foot that crosses the base, the model with clear geometric shapes where soft cushions recline becomes the center of the space in which it is inserted. The padded structural base, in addition to the fabric covering, can also be characterized by a leather covering.

CALLA DM-12991

Domicil

Brice can accommodate several guests to sit side by side in the most comfortable way, in a single sofa or in a both angular and asymmetrical shape. 'Winglets' extend the model by giving it a quasi-aerodynamic signature. The sculptural look of this creation is drawn full and untied, with refined curves. A classic elegance that allows this model to fit in a high-class interior, without any era belonging connotation, plus a strong desire for comfort and conviviality.

Domicil

This design is copyrighted and shall not be used or reproduced without the consent of Domicil

Inspired by the curvature and the spin about function of **Boomerang**, we have created this soft and enveloping collection that cocoons in curves. Boomerang provides an intimate seating experience that is like being wrapped in a protective and relaxing cocoon. The soft shapes are enhanced with the use of "couture" details, special stitching details outlining this sophisticated statement piece.

Undeniably elegant, our statement **Chester** sofa is inspired by vintage style with a contemporary edge. With a timeless silhouette and intricate diamond sewing and pull in detailing, it's clear to see why the Chesterfield style has earned its position as a home design icon. With the Chester, we took the time to really play around with the style, modernising the shape with a gentle, curved arm, and a solid wood base to frame this icon.

A unique and special feature of the design is its adjustable backrest, which can effortlessly transition from an upright sitting position to a comfortable lounging configuration. This versatile function adds an extra layer of comfort and adaptability, allowing users to customize their seating experience according to their preference and needs.

This design incorporates a touch-button footboard function, providing users with the convenience of relaxing their feet while lounging. This innovative feature not only enhances comfort but also contributes to space-saving benefits.

A graceful curved back design that envelops the user in comfort and warmth, creating a cozy and inviting seating experience. Complemented by a sleek modern armrest, this distinctive combination of elements enhances the sofa's aesthetic appeal while ensuring optimal support and relaxation.

Domicil

Cruiser is inspired from the sails of the traditional sailing ship. The soft and elegant lines are inspired by the sails of the ship, that are important to keep the ship on it's voyage. The look is elevated further with the double piping detail that runs through the entire frame.

SAIL DM - 12786

Domicil

Introducing a groundbreaking new feature: the zero-distance-from-the-wall recliner. This innovative addition not only maximizes space efficiency but also offers unparalleled comfort and relaxation. By minimizing the distance required between the recliner and the wall, this feature is ideal for smaller living spaces where every inch counts.

ZERO GRAVITY

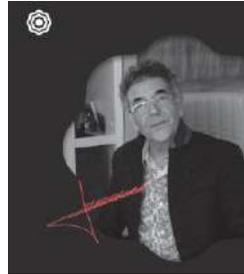

Introducing a groundbreaking new feature: the zero-distance-from-the-wall recliner. This innovative addition not only maximizes space efficiency but also offers unparalleled comfort and relaxation. By minimizing the distance required between the recliner and the wall, this feature is ideal for smaller living spaces where every inch counts.

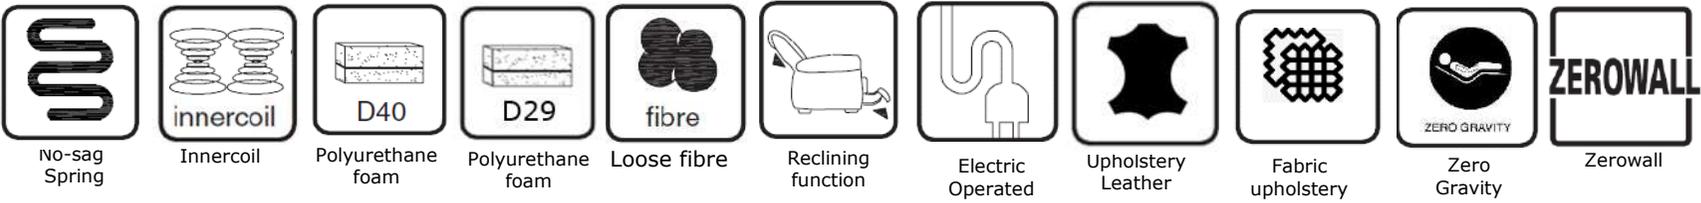

The slim and elegant arm of this sofa is further enhanced by its unique quilting detail, adding a touch of sophistication and luxury to its design.

Zero-gravity reclining position takes relaxation to new heights by allowing users to experience a sensation akin to weightlessness. This position distributes weight evenly, reducing strain on the body and promoting a sense of rejuvenation.

A design by Joly Design

Features

- Zero Wall and Zero Gravity mechanism
- Elegant slim arm design with quilted detail
- Back support in elastic webbing
- Seats in high resilience foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- USB charging port on the toggle switch
- Leg : Black Chrome finish in metal

RECLINING SOFAS
LOW BACK (HIGH BASE)

DOLPHIN DM-12828

Domicil
GERMANY

The design is inspired by the freedom and happiness of our favourite mammal, **the Dolphin**. Unique dolphin tail-like arm wraps this ultra comfortable modern recliner. The open back design provides a sleek modern look, with the comfort of the headrest that supports you when you recline and lounge in style.

RECLINING SOFAS
RATCHET BACK (HIGH BASE)

With its modern, low silhouette and intricate channeling sewing details, our Kori sofa makes relaxing look good. It's sleek arm has a double piping detail that highlights it's unique shape.

A design by Nicole Aptel

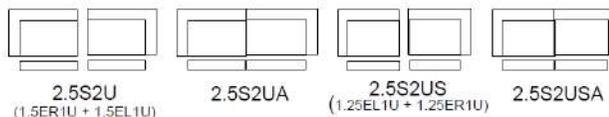

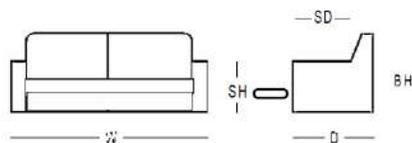

Features

- An adjustable back, open base design with intricate channeling sewing details.
- Multi angles power adjustable ratchet back in soft foam
- Back support in elastic webbing
- Seats in high resilience polyester foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- USB charging port on the toggle switch
- Leg : Metal in black chrome finish
- Elegant arm with double piping.

Domicil

The name **Baskt** honours the classic hand weaving technique of a basket. The technique of this handwoven arm requires refined craftsmanship. Baskt is a high base recliner with powered seats and backs.

BASKT sofa is designed starting from the inspiration of basket containers. The characteristic armrests of the sofa are made up of leather weaves to contain the armrest with a square shape. This detail of the basket is of great refinement, aesthetic elegance that increases the value of the design. Wide, horizontal seats are developed in the various compositions with a dynamic character. Baskt uses a zero gravity recliner function, this function can help enhance blood circulation, alleviate sore muscles, relief lower back pain, reduce stress and even breathe better.

ZERO GRAVITY

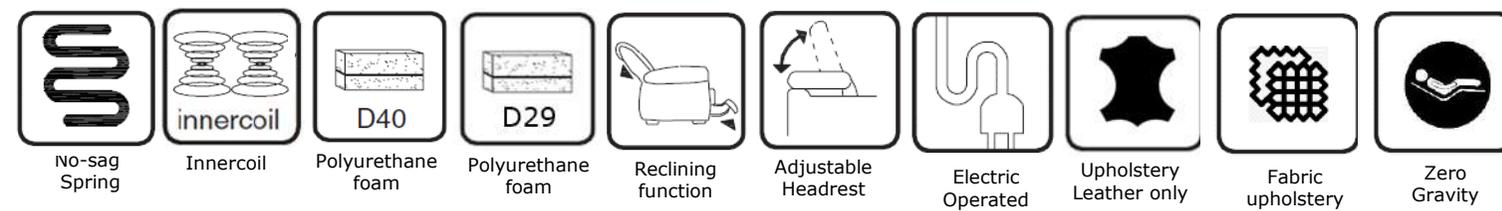

The name **Baskt** honours the classic hand weaving technique of a basket. The technique of this handwoven arm requires refined craftsmanship. Baskt is a high base recliner with powered seats and backs.

ZERO GRAVITY

A design by Federica Francini

2.5S2V in PE-552E

2.5EL1VSA+1.25ER1V in NP-521E/NP-512E

Features

- Beautiful leather handwoven arm highlighted by a sleek metal detail
- Multi angles powered adjustable back in high resilient foam
- Back support in elastic webbing
- Seats in bi-density high resilience foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- Leg : Metal in black nickle plating finish

ZERO GRAVITY

Adjustable backrest ensures optimal comfort, allowing you to rest in a position that suits you best.

The spacious, clean, and modern track arm of this sofa exudes contemporary sophistication, providing both comfort and style. Adorned with elegant French piping, this refined detailing adds a touch of luxury and refinement to the overall design.

Zero-gravity reclining position takes relaxation to new heights by allowing users to experience a sensation akin to weightlessness. This position distributes weight evenly, reducing strain on the body and promoting a sense of rejuvenation.

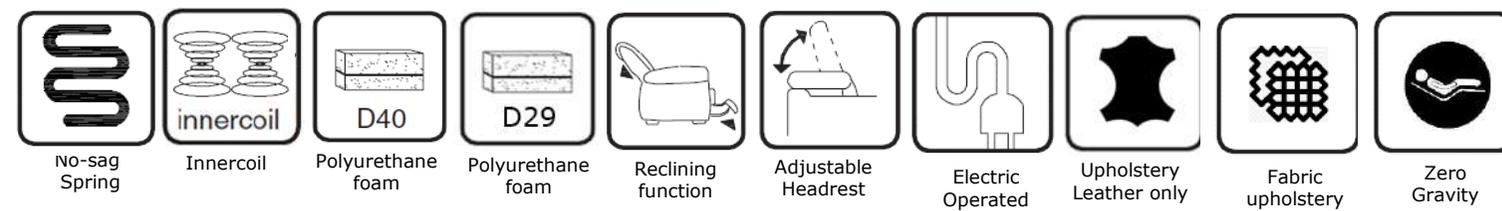

ZERO GRAVITY

Gene incorporates a dual motor recliner system and utilizes a zero gravity off-the-floor recliner mechanism. With its adjustable backrest, it guarantees maximum comfort, accommodating your preferred resting position effortlessly. Gene's design is characterized by its clean, modern, and timeless aesthetics, accentuated by its sleek armrest.

A design by Toh Chye Seng

Features

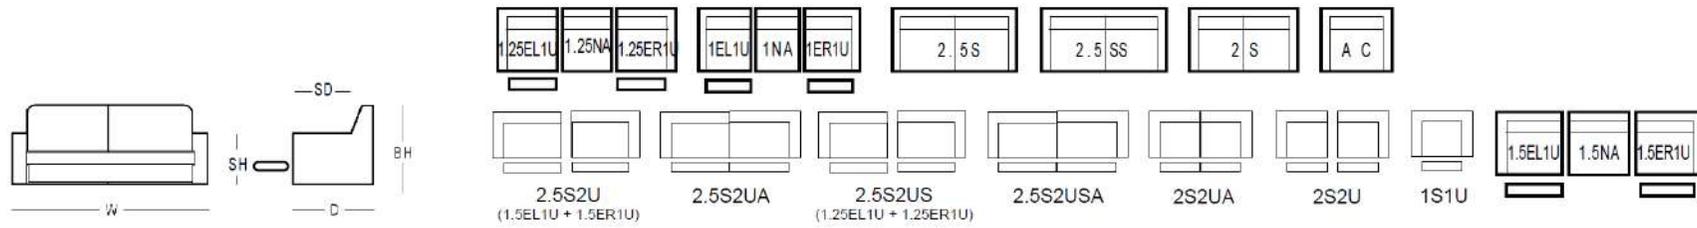

- The spacious, clean, and modern track arm of this sofa exudes contemporary sophistication.
- Zero-gravity reclining position takes relaxation to new heights by allowing users to experience a sensation akin to weightlessness.
- Multi angles powered adjustable back in high resilient foam
- Back support in elastic webbing
- Seats in bi-density high resilience foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- Leg : Metal in matte black finish

GENE DM-13149-PR # 5910

Domicil

From deep blue like the sea and intense like the sky, the **Blueseas** motion is created from natural lines, it adapts to any environment, contented and casual.

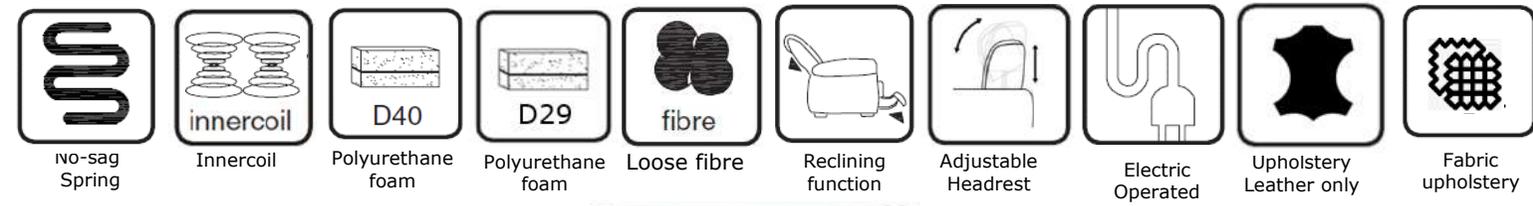

Sample shown in NC-041E/ NC-334E

Sample shown in NP-515E/ NC-898E

Features

- This modern slim arm design is highlighted by a unique arm frame
- Multi angles manual adjustable ratchet back in polyester fibres
- Back support in elastic webbing
- Seats in bi density high resilience polyester foam.
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- USB charging port on the toggle switch
- Leg : Black gloss polish nickel plated

RECLINING SOFAS
UPDOWN (HIGH BASE)

Suzain is an elegant and modern recliner. Its harmonious design is the result of a subtle balance highlighted by a special detail. A steel profile on the side creating a light decoration in the junction between the armrest and the adjustable high backrest.

Sample shown in NP-549E

Sample shown in NC-156E

Features

- Slim arm design with piping and a unique metal insert
- Power adjustable high back in polyester fibres
- Back support in elastic webbing
- Seats in high resilience foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- USB charging port on the toggle switch
- Leg : Black Chrome finish in metal
- Dual power mechanism, the ultimate relaxation

ZERO GRAVITY

Innovative feature allows users to customize their seating experience by effortlessly adjusting the height of the headrest to their preference. Additionally, the mechanism tilts forward, enabling users to find the perfect angle, ensuring optimal support and relaxation.

The soft and spacious tapered arm of this sofa offers unparalleled comfort, inviting you to relax and unwind in style. Enhanced by delicate piping details, the arm exudes elegance and sophistication, adding a refined touch to its overall design.

The framed arm structure imbues the sofa with a sense of luxury and opulence, elevating its aesthetic appeal to new heights.

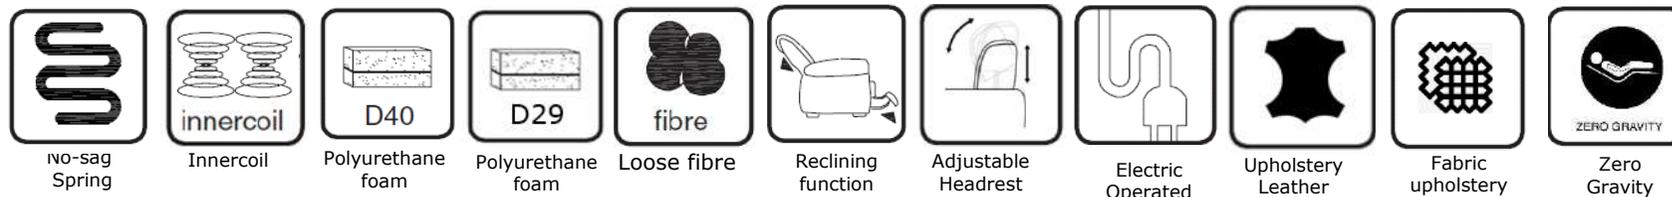

Zero-gravity reclining position takes relaxation to new heights by allowing users to experience a sensation akin to weightlessness. This position distributes weight evenly, reducing strain on the body and promoting a sense of rejuvenation.

ZERO GRAVITY

A design by Nicole Aptel

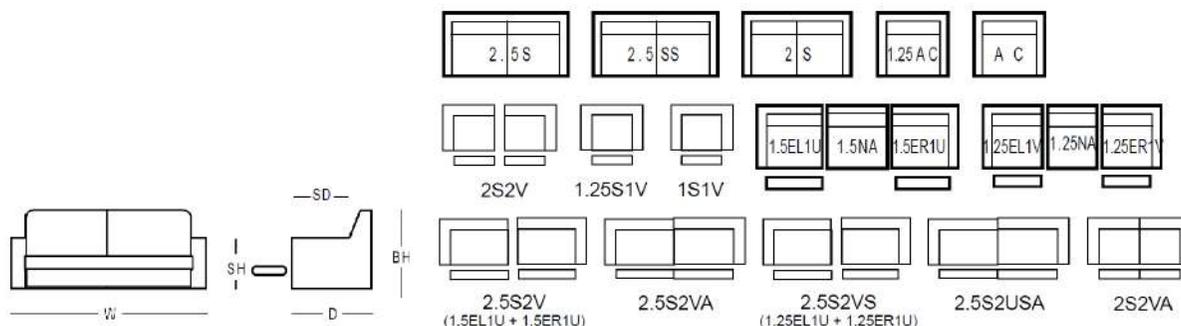

- Delicate piping details, the arm exudes elegance and sophistication
- The framed arm structure imbues the sofa with a sense of luxury and opulence
- Power adjustable high back in polyester fibres
- Back support in elastic webbing
- Seats in high resilience foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- USB charging port on the toggle switch
- Leg : Black Chrome finish in metal
- Dual power mechanism, the ultimate relaxation
- Zero-gravity reclining position takes relaxation to new heights by allowing users to experience a sensation akin to weightlessness

Domicil

Sample shown in NP-516E/ NP512E
Sample shown in NC-335E/ NC-180E

Cruise is inspired from the sails of the traditional sailing ship. The soft and elegant lines are inspired by the sails of the ship, that are important to keep the ship on it's voyage. The look is elevated further with the piping detail that runs through the entire frame.

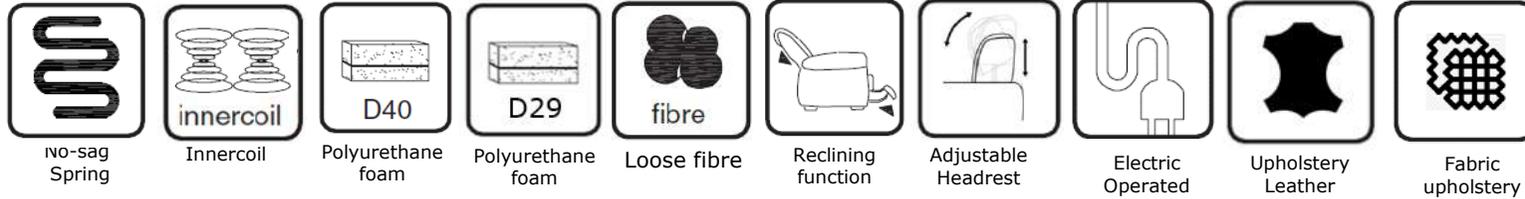

Sample shown in BFA-MAD-02/NC-112E

Sample shown in NP-521E/NP-517E

Sample shown in NC-335E/ NC-180E

Features

- Open base design with unique double piping detail on the arms
- Padded back cushion provides optimum confort
- Power adjustable high back in polyester fibres
- Back support in elastic webbing
- Seats in high resilience foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- USB charging port on the toggle switch
- Leg : Metal in black chrome finish.
- Dual power mechanism, the ultimate relaxation

The design of **Volare** draws inspiration from the liberating essence of flight, embodying both freedom and flexibility. Our latest innovation: a fully modular recliner that offers unparalleled flexibility and customization. With this recliner, you have the freedom to arrange it in any configuration you desire, adapting effortlessly to your space and preferences.

The adjustable backrest feature ensures optimal comfort and flexibility, allowing you to find the perfect angle for relaxation. Whether you prefer sitting upright or lounging back, this recliner has you covered.

Our recliner also boasts an adjustable arm function that goes beyond conventional seating. Not only does it provide the most comfortable position for sitting, but it also doubles as a head support when you lay across the sofa like a bed. This innovative design feature ensures that you can enjoy maximum comfort and support, whether you're sitting, lounging, or laying down.

The design of **Volare** draws inspiration from the liberating essence of flight, embodying both freedom and flexibility. Our latest innovation: a fully modular recliner that offers unparalleled flexibility and customization. With this recliner, you have the freedom to arrange it in any configuration you desire, adapting effortlessly to your space and preferences.

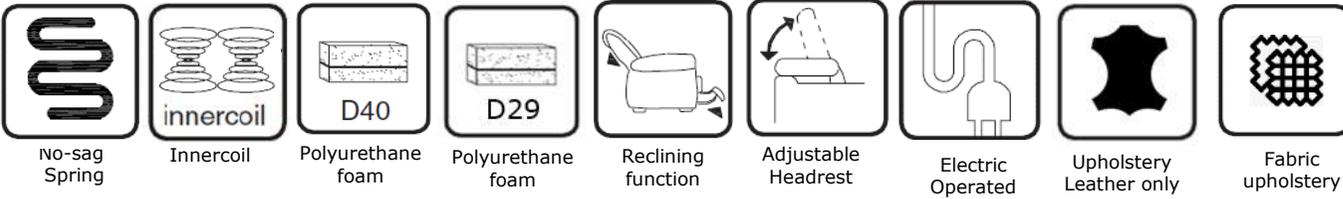

Incorporating a sleek and functional console table, this recliner seamlessly transitions into a home theater sofa, providing you with the ultimate entertainment setup right in the comfort of your own home.

A design by Toh Chye Seng

Features

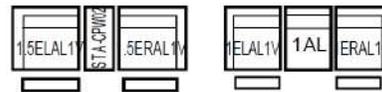

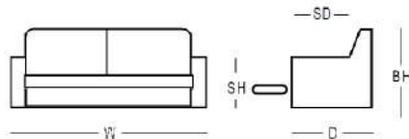

- Featuring adjustable arm and back.
- The fully modular configurations enable you to utilize each piece independently
- Multi angles power adjustable ratchet back in soft foam
- Back support in elastic webbing
- Seats in high resilience polyester foam, built up with inner coil springs
- Seat support in no sag spring system
- Wooden inner frame
- Reclining mechanism can be adjusted into any position
- Leg : Plastic stoppers
